

I am totally against any Cable or Phone company being able to gain complete control over Internet Access. We should be allowed to chose an ISP that we want. I am very happy with my ISP and resent the fact that someone is could tell me I have to go with Verizon or Qwest just because of my address.

Also many people would lose their jobs if this happens. I believe the phone companies and cable companies make enough money as it is, it is nothing but greed. Thank you,
